Warning Issued Over Breaking Signals On Santa Fe Bridge Here

Parents of boys who carry rifles and shotguns to the Santa Fe Bridge across Little River Bottoms and break insulations on the signal blocks and towers, should see to it that it does not happen again.

Officials of the reailroad company fully realize that these boys are only being normally mischevious and do not know the damage they have caused. On one occasion recently a mail train was delayed because signals went out.

Earnest Paschal of Temple, special officer for the Santa Fe was in Cameron Tuesday and requested The Herald to bring this matter to the attention of the boys and their parents. Mr. Paschal was more concerned about the lives of the boys. He feels that they have been walking across the trestle and fears they may be trapped by a train. The new Diesel engines now in use are fast and somewhat silent and may overtake some boy who cannot make it to the exit schutes along the mile of trestle.

For the sake of their lives the plea is made for boys to stay off the trestle. Parents should see to it that their sons are not allowed on the trestle nor to shoot and break insulation glass on the signal installations.

Surplus cross ties being piled along the right of way near Buckholts are not to be taken as they are scheduled for use elsewhere. Due to the scarcity of timber the railroad must use them at other places where they are practical.

PHONE OPERATORS TO QUIT HERE APRIL 7

Telephone operators in Cameron will walk out on April 7 to join Union workers throughout the country.

The vote was completed here Saturday. A total of 20 Union members voted and the result was 19 to 1 to walk out, it was announced by Mrs. Willie Faulkner, local Union representative.

The strike is nation wide and will come if the telephone systems do not grant a $12 a week wage increase.

Mrs. Faulkner said that all 20 members of the Union here had voted to join the new organization known as the Communication Workers of America. The union is now being organized throughout America.

"WASHINGTON — The national federation of telephone workers today reported balloting running 15 to 1 in favor of a nationwide strike.

"The union convention last November fixed April 7 at a strike deadline but it will be up to the policy committee of 49 members, beginning sessions here tomorrow, to decide if and when a strike is to be called.

"The chief objective of the unaffiliated union is a $12 weekly pay increase.

"The complete strike vote probably will not be known until the policy committeemen report Monday. Balloting is being conducted by the 39 unions participating in the nationwide bargaining program.

"The NFTW says 287,025 workers are in the bargaining units represented by the 39 unions. A strike by those affiliates would cripple telephone service throughout most of the nation.

"Labor department officials announced last week that every effort would be made to avert a strike.

"Conciliation Director Edgar L. Warren said commissioners are working with negotiators in 30 cities."

Earnest Paschal, special officer for the Santa Fe was in Cameron Tuesday on business. He resides in Temple.

The London Blitz Was Nothing Compared To Tobacco Row Cabin and Its Snuff Dippers Thinks British Bride; Is Going Back Home

CHATHAM, Va., March 24—UP—A penniless war bride who found her American dream home was a three-room log cabin without running water today waited to return to England with her shattered illusions and her 2½ year old son.

Mrs. Iris Lilian Norman Brumfield, 24, said her ex-GI husband, 30-year-old Oscar Brumfield, told her he had a factory job and a white frame cottage. But when she came to America seven weeks ago, she found him living with his parents in a sharecropper's cabin on a tobacco farm. So she left him.

The bathroom, she said, was an outhouse. The only water supply was a spring—a half mile away.

"In Bristol, England, we had plenty of heat, hot and cold running water, and every moden convenience," she said. "In America I expected at least as much.

"Rather than waste my life, I decided to go back to England."

Mrs. Brumfield said she and her husband and their child lived in one room of the cabin. Her husband's parents lived in another room, and the third was used as a kitchen.

Her mother-in-law dipped snuff, she said, which she had never seen before.

GI'S GETTING JOB DONE

THREE BUILDINGS BEING MOVED TO CAMERON

The key to community success is co-operation and local GI's have solved an important problem, that of housing their school activities.

Lt. Sam White who is teaching a Vocational Agriculture Class in Cameron, is supervising the moving of three buildings from the old prisoner of war camp in Hearne to Cameron and the work is being done free of charge by the students, all ex-service men.

Three other school sites are doing the same work. These schools were authorized by the government and were organized under the co-operative supervision of Chas. M. Hicks, county superintendent and the State Department of Education.

Lt. White said Friday morning that so far the work had cost some ten gallons of gasoline and one truck tire.

Lumber from the dismantled structures is being stacked on the campus of the old Grammar School building at the end of North College Avenue.

Negotiations are under way for rights to erect these buildings on the old school grounds, now not in use. The city has asked for and obtained the use of the old academy building provided the people authorize some $30,000 for repairs on it to put it in condition for a municipal building.

MORRISON HEADS THE VFW POST IN CITY

Veterans of Foreign Wars, Ben Milam Post, plan to erect their own building in Cameron.

It was disclosed at their meeting Wednesday night that the Post has enough funds on hand to purchase a site and although no final determination has been made, it is definitely in the mind of members to go ahead with the plans.

Bill Morrison was elected Post Commander; Ralph Koepf, Senior Vice Commander and Woodrow Lowe, Junior Vice Commander; Alvin Houston of Ben Arnold, Adjutant.

Membership in the Veterans of Foreign Wars post here is on the increase and it is pionted out that the Post while comparatively young in point of organization, has a membership large enough to promote any financial plan the Post may determine is wise and practical.

Dr. John Lane Baskin and wife are in Dallas this week where the Doctor is attending a medical meeting.

HIS TACTICS ARE LIKE HITLER SAYS ISVESTIA

Communist Russia let loose a tirade of abuse of President Truman and called his tactics in dealing with Greece and Turkey like that of Hitlerite Germany.

The official Organ of the Communist Party in Russia, Isvestia made full comment upon the message of the President Wednesday when he asked the Congress to stem the Red Tide in the Balkans by putting up a stop sign at the borders of Greece and Turkey.

The Reds charge that The President is attempting to force economic imperilism on these countries and deplore what they say is "hated capitalistic agression."

The Russian system hates the Western system because the western system believes in individual ownership of property.

The issue seemed squarely joined as Congress made ready to begin hearings on the President's message in which he asked 400 million in loans to Greece and Turkey.

Senator Vandenburg, Republican, and chairman of the Foreign Relations Committee in the Senate, has asked his party to support the President.

Representative A. N. Green is in Cameron for the week end from his duties at Austin in the Legislature. The House adjourned and Mr. Green came home to look after his personal affairs. He hopes to get legislative approval on his bill to establish a Sandyland Experiment Station in Milam county.

Mrs. Mary Young Green is sick with a case of flu, but is reported some better.

Friends of Howard H. Daniels of Cameron will be glad to know he is doing well as a patient in the Newton Memorial Hospital.

Apple Tree Versus Wheat Field

If you ever visit Jeb Crowell's farm, he'll take you right out on that back porch of his and show you his apple tree.

"There," says Jeb, "is nature's noblest creation—fifty years, and bearin' still the finest cider apples in the county!"

But last fall, when a group of us was there, Lud Denny points across the river to his grain fields and says: "There's an even finer sight! Acres and acres of golden grain you can make dozens of appetizing things with—including wholesome, sparkling beer."

Both of them got so eloquent on the subject, that the rest of us worked up quite a thirst; so Jeb goes to the icebox for beer and cider. And when the refreshments come, Lud chooses cider, and Jeb takes the beer!

From where I sit, that's the answer to most disputes. You can talk all you want, but when it comes to tastes and preferences, there's just no argument.

Look at Your Neighbors....

They Sometimes Point The Way

Any city is as good as its merchants and likewise any city is as good as it is a retail market.

Judging by tte volume of local advertising in Cameron newspapers in comparison to the volume in our neighboring cities, the merchants here have very little to sell. No retail market can expand, hold its own or be attractive without advertising. It never has been done and never can be.

That's why we say "Look at your neighbors." More than 60 per cent of the normal volume of display advertising has been foreign in the columns of The Herald for months.

Folks go where they are invited. Nobody knows what you have for sale unless you advertise. No city has a good retail market behind an "iron curtain". Let's come right out and invite folks to trade here.

In 1920, 1924, 1934 and up through other years, The Herald printed from 16 to 20 pages weekly. The average now is 8. Business has been good only because of surplus money, What are you going to do when you face the necessity of creating business? That's an individual matter.

Volume advertising builds a community center where folks like to trade.

Use Display; use Classified, use any form of newspaper advertising—but ADVERTISE.

U S TAX PAYER WILL NEVER SEE DAYLIGHT

WASHINGTON — America's new role of blocking the onrush of Communism and helping small countries to survive as free nations may well cost taxpayers in excess of $32,000,000,000.

This outlay, a survey revealed today, is already well-launched and is currently running at the rate of about $10,000,000,000 a year. The spending started immediately after the end of the war and has not abated.

While the $400,000,00 requested for Greece and Turkey is getting the greatest public attention, the actual fact is that the sum asked by President Truman is small in relation to the outlay's over-all scope and represents but a minor supplemental grant in global financing.

A tabulation of all loans granted and relief expenditures promised or planned for the immediate postwar period indicates that at least $16,000,000,000 already has been commited and another $16,000,000,000 is planned or in the process of being promised by Uncle Sam.

Major Keithley, basketball coach at Waco High School, will be the official starter. He is a well known track official.

SANDLAND EXPERIMENT PROJECT CALLED FOR

A Bill calling for a Sandyland Experiment Station in Milam County, has been introduced in the House of Representatives at Austin by A. N. Green, local representative.

Mr. Green pledged the introduction hearing will be held on the bill at 3 p. m. Tuesday, March 25.

Mr. Green calls for a large delegation from this county to be in Austin next Tuesday afternoon to advocate the passage of this bill.

The initial expenditure for the fiscal years from August 1948 to August 1949 is $88,200. This includes construction and the salaries of Superintendent, Horticulturist, Foreman, two laborers and seasonal laborers.

The Bill specifies that the Experiment Station shall be located in the eastern part of the county. The station would be devoted to developing new types of vegetables, fruits and other farm products adapted to Sandyland. The Bill also provides for a program of research and experimentation to be directed by Texas A&M.

TWO VACANCIES ON THE CAMERON SCHOOL BOARD

Term expirations of two members of the Cameron School Board brought to the attention of the people of the city that an election is to be held on Saturday, April 5.

Dr. Clifford G. Swift, President of the Board, said that he does not seek the office again but unless someone files for his place, he will stand for re-election.

George Childress is retiring from the board and will not be a candidate.

Dr. Swift said Wednesday that he believed it important to give some publicity to the coming election so that the people may know that trustees are to be elected and it is possible, he said, that someone might wish to file. In that case he would not be a candidate.

Names for the ballot must be filed with the Secretary of the School Board. It was not announced when the final date for filing will be.

VICTORY IS ASSURED IN BATTLE AT AUSTIN

AUSTIN—Texas teachers were publicly assured tonight by proponents of both types of bills designed to raise their salaries that the 50th legislature was determined to make certain their pay is made more adequate.

Sen. A. M. Aikin, Jr., of Paris told the audience that packed the senate chamber he thought the $2,000 minimum per year proposed was "small pay for the noble profession of teaching."

Sen. Jim Taylor of Kerens said he though the salary scale in his bill was too low. "We should provide a minimum of $2,400 a year for degree teachers," Taylor declared.

Aikin is author of a senate bill, companion to a house-passed measure, to raise the per capita apportionment for scholastics to $55 a year. It is linked with a $2,000 minimum pay bill. The senate finance subcommittee was considering similar measures by Rep. Dallas Blankenship of Dallas.

Taylor is author of a bill seeking to assure a minimum of $2,000 salary per year on the basis of need. It would require that school districts, to qualify for the aid, must have at least a 50 cent school tax per $100 valuation.

Aikin, responding to questions from subcommittee chairman Grover C. Morris of Greenville, said he was sure the per capita bills were so written as to guarantee that the money would be used for teachers pay.

Taylor said the per capita bills placed a premium on non-attendance in that they do not require a minimum average daily atendance. His bill requires that such attendance be 65 per cent. He said his bill would get the job done with revenues now sighted.

Printing is a home industry.

Mr. and Mrs. Earl Nelson and son Earle, Jr. of Dallas, visited his sister, Mrs. Annie Reese Saturday.

John C. Young of the Texas Power & Light Company in Waco, was in Cameron Tuesday looking after some land interests of himself and the company near Minerva. Mr. Young is manager in Waco and at one time was manager here.

CHRISTIAN SCIENCE SERVICES

"Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 30.

The Golden Text is: "Thou, O Lord' shall endure for ever: and thy remembrance unto all generations" (Psalms 102:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I know that, whatsoever God doeth, it shall be forever; nothing can be put to it, nor any thing taken from it: and God doeth it, that men should fear before him" (Ecclesiastes 3:14).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All reality is in God, and His creation, harmonious and eternal. That which he creates is good, and he makes all that is made" (page 472).

CHAMBER COMMERCE TO SPONSOR SCHOOL

A business clinic is proposed for Cameron by L. G. Smith, new manager of the Cameron Chamber of Commerce.

Mr. Smith has just returned from a visit to East Texas where he attended a clinic being held there to propagate the idea of better informed business men. Proposal of the clinic in Cameron will be the first major act of the new manager.

The business clinic has a two fold purpose. One of the more important phases is to modernize the business man's conception of civic and merchandising duties and also to find out what the business man, the paying member of the Chamber of Commerce thinks should be done for his home city.

Such a clinic is needed here, is the general agreement. Wide support of the movement is needed not only for the results but for better co-operation among the business interests of the city.

The Chamber of Commerce has been a slow moving, little achieving organization in the past. Its whole future may well be determined by the success of plans in the immediate few weeks ahead.

Right now there is the Agricultural situation, begging for attention. Crops will soon be coming on and it is doubtful if Cameron will be any further advanced than last year in the matter of market information, concentration and distribution of highly perishable food products.

Cameron Chamber of Commerce should do something about the Dog Wood Trails and the Blue Bonnet Hills.

Cameron Girl Leads Dalhart Band To "Trail Street" Premier Tues.

Martha Brogdon of Cameron, director of the Dalhart High School Band, on Tuesday, March 25 at Liberal, Kansas, will lead her band in the colorful prade and ceremonies incident to the world's premier showing of "Trail Street."

She is the daughter of Mr. and Mrs. S. E. Brogdon of Cameron and is a graduate of North Texas Teachers College. She graduated in music and is a cornetist and has chosen band music and band leadership for a career.

The celebration at Liberal will feature a big parade with movie stars, bands and floats.

Miss Brogdon was recently elected director of the Dalhart High School Band. As a student in Yoe High School in Cameron she was a member of the world famous Cameron band.

On May 2 Miss Brogdon will lead her Dalhart band to Guynon, Oklahoma for the annual Pioneer Day Celebration and Rodeo.

Mr. and Mrs. Frank Philley are the proud parents of a daughter, born at 6:40 a. m. at the Newton Memorial Hospital on March 20. Their home is in Rogers. The baby weighed 8 pounds and 3 ounces and has been named Sandra Ann.

Mrs. James R. Wilson and Mrs. W. M. Harvey and son Michael, of Waco, and Mr. and Mrs. H. F. Schieffer of Austin, and Frank M. Newton of Waco were week end guests in the home of Mrs. W. R. Newton, Sr.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

CONSTIPATION
Risky in
BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

LEWIS SURRENDERS TO GOVERNMENT ON STRIKE

WASHINGTON, March 19.—John L. Lewis, yielding "unconditionally" to a Supreme court mandate, told his 400,000 soft coal miners today to keep on working after March 31.

With no outward hint of bitterness, Lewis thus called off the threat of a new nation-wide coal strike next month and agreed to leave it to the courts for "final determination" of this long and costly battle with the government.

In terminating the strike last fall, Lewis had instructed his miners to continue operations until the end of March.

The United Mine Workers' chief signaled his surrender today in a 20-word letter to Secretary of Interior Krug—a message wholly lacking his usual blunt defiance—declaring simply:

"The notice of November 15, 1946, terminating the Krug-Lewis agreement as of Nov. 20, 1946, is hereby unconditionally withdrawn."

You Get 8¢ Savings
ON YOUR ELECTRIC SERVICE DOLLAR . .

..WHILE OVER-ALL LIVING COSTS ARE UP 45¢

Electric service (together with other public utility services) by the end of 1946, was 8.3 cents cheaper out of each dollar paid out for this service than in the base period of 1935-39, according to figures of the United States Bureau of Labor. That is, the amount of electric service that cost $1.00 before the war cost only 91.7¢ in 1946.

During the same period, over-all living costs rose by 45¢ per dollar spent. Food purchased for $1.00 between 1935 and 1939, cost $1.74 in 1946. Clothing leaped from a $1.00 base to $1.65, house furnishings to $1.65 . . . and even rent, though held down by OPA ceilings, advanced about 5¢ on the dollar.

Despite increased labor and material costs, Texas Power & Light Company has voluntarily reduced your electric service rates since the end of World War II; has voluntarily reduced rates generally three times since 1935, and six times since 1925. Today your TP&L service costs less than half as much per kilowatt-hour as it did in 1925.

This direct saving to you has been made possible by sound management and a loyal, experienced organization with a sincere and unceasing desire to provide you greater opportunity to enjoy at lower cost the many conveniences that modern electric service affords.

M. G. Cox plans a trip through the Dog Wood country Sunday to make an estimate of the proper time when the people may go in large numbers. The dog wood will soon be in full bloom and they are very attractive.
